CAREER OBJECTIVE

As a passionate and driven college student, I am excited to begin my internship journey. My goal is to acquire hands-on experience, deepen my knowledge, and apply classroom theories in a real-world setting. I am eager to contribute to a dynamic team, learn from industry professionals, and enhance my skills in preparation for a successful career. This internship represents a crucial step in my professional development, allowing me to bridge the gap between academic learning and practical application.

SKILLS

C Programming-Intermediate	HTML	Content writing
Java Programming-Beginner	Critical thinking skills	CSS
Sql - Intermediate	DSA	UI/UX Design
Python - Beginner	Communication skills	Video Editor

PROJECT

Fin - Tech (Finance based Technology)   **April 2024 - Present**

The Stock Investment Journey Guide project helps individuals start investing by providing historical stock data, including price history, trading volume, and market events. It features an intuitive interface, data visualization with graphs and charts, educational insights on investment concepts, and basic recommendations based on historical analysis. Developed in Java, the program uses APIs for data retrieval and visualization libraries, promoting financial literacy and informed decision-making.
